## As Revistas Predatórias

Helena Donato

&

Rui Marinho

# Passado

- Desde séc. XVII que as revistas são o principal meio de comunicação da ciência
- Estabeleceram os princípios de prioridade científica e de revisão por pares
- 1665 - primeiras revistas científicas
- 1820 – primeiras revistas especializadas
- 1960s – formato IMRaD
- 2002 – movimento do acesso livre – Open Access
- Actualidade....

# Actualidade - Modelos de Publicação

- Várias editoras surgiram nos últimos anos, com modelos de negócio baseados no acesso livre
  - Os custos de operação dessas editoras não são suportados pela assinatura das revistas, que estão disponíveis gratuitamente...
  - ... mas
  - Pelos próprios autores, que pagam um valor por cada artigo publicado (€€€€€€€)

# Vários Modelos

Diferenças entre edição tradicional (em revistas de assinatura) e em *open access*/acesso livre:

- **Custo**
  - Tradicional: publicação é gratuita para autores, leitores pagam
  - *Open Access*: artigo é gratuito para leitores, autores pagam para publicar → *article processing charges*
- **Copyright**
  - Tradicional: *copyright* é geralmente da editora
  - *Open Access*: *copyright* permanece com o autor

# Vários Modelos

- Várias editoras legítimas surgiram nos últimos anos, com modelos de negócio baseados no acesso livre

# Article Processing Charges (APC)

Pode ir de 950€ a 2400€

Preço médio das APC:

- É de 1200€ para revistas de acesso aberto
- É de 1980€ para revistas híbridas
- Ambos os tipos de publicação podem ser reembolsados nos projectos H2020

# Editoras e Revistas Predatórias

- Infelizmente a publicação predatória é frequentemente confundida com publicação em *open access*
- Exploram o modelo de acesso livre em seu próprio benefício
- Tiram partido da síndrome POP (*publish or perish*)
- Maioria destas revistas é oriunda de países como Índia, Paquistão, Nigéria, embora indiquem endereços dos EUA ou Reino Unido
- Fingem ser legítimas, copiando os *sites* e práticas de revistas respeitadas

# Revistas Predatórias

- Todos já recebemos um email convidado à submissão de artigo
- Processamento “fast-track” é prometido
- *Peer review* é fraco ou falso
- Artigos são rapidamente aceites
- E depois.....
- Pedida taxa de publicação (€€€€€)

Beall's List of Predatory Publishers 2015

## Beall's List of Predatory Publishers 2015

**by Jeffrey Beall, January 2, 2015** Each year at this time I formally release my updated list of predatory publishers. Because the list is now very large, and because I now publish four, continuously-updated lists, this year's release does not include the actual lists but instead includes statistical and explanatory data about the lists and links to them.

**Potential, possible, or probable predatory scholarly open-access publishers:** This year, 2015, marks the fifth annual release of this list, which is also continuously updated. The list this year includes 693 publishers, an increase of 241 216 over 2014.

Publishers	
Year	Number of publishers
2011	18
2012	23
2013	225
2014	477
2015	693

## INVITATION

Dear Dr. H Donato,

The Editors at Jacobs Journal of Ophthalmology hereby invite you to contribute an article to an upcoming issue, focusing on the following areas **but not restricted to**

- Retinal Diseases and Surgery/Retinal Disorders
- Cataract and Refractive Surgery
- Diabetic Microvascular Complications
- Pediatric Ophthalmology
- Diabetic Retinopathy
- Ophthalmology and Visual Science
- Brain and Optical Pathway
- Congenital Syndromes, Malformations and Abnormalities
- Iris and Ciliary Body
- Lens and Lids
- Sclera
- Ocular Oncology
- Optic Nerve
- Social and Economic Problems of Blind
- Ophthalmology Case Reports
- Cornea and External Disease
- Glaucoma
- Neuro Ophthalmology
- Corneal Neovascularization
- Macular Degeneration
- Conjunctiva
- Hypertensive Retinopathy
- Lacrimal System
- Optical Defects of Eye
- Strabismus, Ocular Motility Disorders
- Optometry, Opticians, Spectacles
- Lachrymal Glands, Orbit, Eyeball
- Osteoporosis

Jacobs Journal of Ophthalmology is ardent to promote erudite, pragmatic, and contemporaneous research in the fields of Ophthalmology on Open Access platform. This Journal facilitates rapid publication with unlimited dissemination of knowledge to readers.

Dear Dr. Rui Tato Marinho,

We are glad to introduce our journal, "[Journal of Emerging Diseases and Virology](#)(ISSN: 2473-1846)", which is aimed to publish high quality research content involving in various fields of Virology. We have successfully published Volume 2 Issue 3 and are now accepting manuscripts for Volume 2 Issue 4.

It would be a great assistance if you can submit your valuable work, as we believe that your research will add more quality to scientific disciplines.

We accept Original papers, Reviews, Mini reviews, Short Communications, Opinion articles and Letters for publication in our journal.

You may submit your papers [online here](#) or as an attachment to this e-mail.

Looking forward for a scientific collaboration!

Thank you in advance!

With regards  
Charlotte Watkins  
Editorial Coordinator

# Journal Citation Reports

The recognized authority for evaluating journals

## Description:

Journal Citation Reports® offers a systematic, objective means to critically evaluate the world's leading journals, with quantifiable, statistical information based on citation data. By compiling articles' cited references, JCR helps to measure research influence and impact at the journal and category levels, and shows the relationship between citing and cited journals. Available in Science and Social Sciences editions.

For more information, visit the [Journal Citation Reports](#) website

# Fake Peer Review

NATURE | NEWS

**Faked peer reviews prompt 64 retractions**

The cull follows a similar discovery earlier this year.

Ewen Callaway

BioMed Central retracting 43 papers for fake peer review

*In November 2014 we wrote about fake peer reviews for Nature; at that point there had been about 110 retractions across several journals. The addition of 16 retractions by Elsevier for the same reason, and today's 43 from BMC, brings retractions resulting from the phenomenon up to about 170.*

# The Economist

12.99 £ 16.99 \$ 26.99 • 16.99 • 26.99

Territory

# Hijacked Journals

- Mais 2 riscos ameaçam integridade da publicação científica: Revistas *hijacked* e *phishing*
- Criam *sites* falsos que imitam os das revistas autênticas e respeitáveis, abusando dos nomes e identidades estabelecidas, como o ISSN, com a única finalidade de exploração financeira
- São de natureza criminosa pois o mecanismo é típico de roubo e/ou furto

# RTM

- Grande elogio > convite
- Editor de um número especial
- Para publicar artigos (quase todos os dias)
- Convite para editor-chefe de jornal em Hepatologia
- Não convite para peer-review

# Conclusões

- Apesar da crescente consciência de tais editores predatórios, as revistas fraudulentas continuam a multiplicar-se (ver lista de Beall)
- Revistas com nomes sugestivos e científicos (ver Journal Citation Report)
- Aparentemente grátis com open access
- Atenção aos factores de impacto
- “Pubjacking”
