ACTA MÉDICA PORTUGUESA

Revista Científica da Ordem dos Médicos

I. Authorship contribution

By signing this document, authors are declaring:

- (1) Their agreement with the proposed author as corresponding author;
- (2) Their agreement with the proposed number and order of authors of the manuscript;
- (3) Their significant contribution to the manuscript in compliance with the Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly work in Medical Journals issued by the International Committee of Medical Journal Editors - ICMJE, namely (please specify each author's contribution to the manuscript):

Date: 13 November 2017

Authorship contribution

Name:

André Biscaia

Contribution:

- Conception, design, or planning the study
- Analysis and interpretation of the results
- Drafting of the manuscript
- Critically reviewing or revising the manuscript for important intellectual content

Name:

Pedro Amorim

Contribution:

- Conception, design, or planning the study
- Acquisition of the data
- Critically reviewing or revising the manuscript for important intellectual content

Name:

Simão Esteves

II. Authorisation to publish

By signing this document, authors are declaring:

- (4) Their agreement that the manuscript will be held jointly by Acta Médica Portuguesa and the authors, in case the manuscript is accepted for publication by Acta Médica Portuguesa, and cannot be reproduced, in whole or in part, without previous consent by the editors. These restrictions do not apply to abstracts whether or not presented in scientific meetings.
- (5) Their agreement with the manuscript being made available electronically as well as in paper by Acta Médica Portuguesa, according to the **Creative Commons Attribution License – NonCommercial – NoDerivatives** (Notice: this means that authors' copyright is maintained, as well as any electronic copy, distribution and printing of published manuscripts for non-commercial, academic or individual purposes is allowed, without any permission or payment, provided that the authorship and source are referred; in addition, derivative works licensing is required in similar terms).
